

Little Flannel Flower

This Essence deals with the child aspect in us all. It addresses the expression of playfulness, being carefree and spontaneous joy. It is for people who regard life as a very sombre and serious experience. It is also for children who tend to grow up much too quickly, who take on the troubles of the world and get old before their time. It helps children get in contact with their spirit guides. Its delicate, tiny, white flowers cover the bush with a blanket of colour and white light, yet it is easily overlooked due to its size.

Negative Condition:

- denial of the 'child' within
- seriousness in children
- grimness in adults

Positive Outcome:

- carefree
- playfulness
- joyful
