

Common Name	Principal Constituents	Plant Part
Eucalyptus Australiana Organic <i>Eucalyptus radiata</i> ssp. <i>radiata</i>	1,8-cineole (75%), α -terpineol (9%), limonene, citral (<2%), terpinen-4-ol, α -terpinyl acetate	Leaf/stem

Country of Origin	Growing Method	Effects and Comments
Australia	Organic	THE medicinal Eucalyptus oil, as praised by Australian researchers, Penfold & Morrison in the 1930's. Excellent for aiding in the relief of many respiratory complaints. Seen by French practitioners as a potential anti-viral essence, <i>Eucalyptus radiata</i> has good 'toning' qualities, for boosting our Defensive Qi, the 'energetic' aspect of our immune system. Sustainably wild harvested and single distilled.
