

Eczema Moisturiser

This luscious and intensely hydrating eczema moisturiser melts into the skin. It brings together two of the world's most moisturising and soothing ingredients: oatmeal and coconut. Our itchy baby co eczema moisturiser also gives you all the benefits of rich shea butter and vitamin E, which help protect your child's skin.

Our itchy baby co eczema moisturiser does not contain water, this means the skin will benefit from long lasting hydration as our eczema moisturiser coats the skin for longer. Use our itchy baby co eczema moisturiser immediately after bathing in our bath soak to lock in the most moisture for extended nourishment.

How to use:

With a downward motion, layer the moisturiser into the skin at least twice daily

Most importantly generously apply to damp skin immediately after bathing in itchy baby co. bath soak to lock in the most amount of moisture

It can take a few minutes to absorb into the skin while it forms a barrier to stop moisture loss & boost skin hydration
