

Calendula Cream

What's so good about Martin and Pleasance Calendula?

This product comes in 3 different sizes, 20g, 75g and 100g. The 75g comes in a squeeze tube, whereas the other sizes come in glass tubs. The 75g tube is a great product for this kind of application because there is less contamination of the product between applications – no double dipping!

Apply 3 times daily or as required.

Directions: For external use only.

Ingredients: Each 100g contains 10ml of Calendula officinalis extract (1:5) Equiv. dry flower 20mg/g in an [naturally derived cream base](#)

Warning: *Always read the label and use only as directed. Seek professional advice if symptoms persist*
