RASPBERRY
FLAVOUR**

The same great natural toothpaste is now available in **Ripper Raspberry**

- No Fluoride ✓
- No Sugar ✓
- No SLS ✓
- No artificial colours or sweeteners ✓
- YUM! ✓

Snappy Jaws with Xylitol is a specially developed natural toothpaste for kids. With its fun design and yummy fruity taste, Snappy Jaws is the natural toothpaste alternative that encourages children to brush their teeth. Available in five fruity flavours that kids will love!

Xylitol, a natural substance from the birch tree, fights acid-producing bacteria which cause tooth decay and gum disease (*gingivitis*)

Snappy Jaws does not contain:

SLS (*Sodium Lauryl Sulfate*) is a foaming agent that can dry out the protective layer of oral tissues causing damage.

Fluoride when consumed excessively can cause *dental fluorosis* - a health condition caused by a child receiving too much fluoride during tooth development.

Sugar promotes growth of bacteria that cause tooth decay and can lead to cavities or loss of tooth enamel.

Ingredients

Active Ingredient: Xylitol (from birch tree)

Other Ingredients: Calcium hydrogen phosphate, water, sorbitol (from berries), glycerine, hydrated silica, lauryl glucoside (from palm), natural flavour, hydrogenated castor oil, vegetable gum, citric acid, potassium sorbate, peppermint oil, natural colour.
