

Nutraviva Beef Gelatin

Nutraviva's Beef Gelatin is a premium grade, grass-fed and finished product. It has not been blended with any inferior, lower grade gelatin powders. Gelatin is a long chain protein which takes the body a long time to digest and be absorbed into the bloodstream. This makes beef gelatin ideal for those who may be suffering from gut and digestive issues, wishing to help control appetite and for those looking to create healthy protein rich meals, snacks and desserts.

Ingredients:

Pure beef gelatin powder.

Beef Gelatin 100g

Beef Gelatin 450g

Key points of difference:

- Grass fed & finished gelatin powder ensuring the highest quality and ethical considerations for the product. There are no nasties added to our products including hormones, pesticides or GMOs.
- High grade gelatin powder with a 225 Bloom rating, 30 mesh. Ideal for use as a health supplement, making protein rich satiating beverages and for making healthy jellies and desserts at home.
- 100% pure & natural beef gelatin. Nutraviva Beef Gelatin is not blended with inferior grade gelatin powder, fillers or binders unlike some competitors who do not provide transparency in nutritional information regarding sourcing and blending. This effectively hides from customers whether a product is grain fed or sourced from countries that do not uphold strict standards for sourcing, traceability and food safety.
 - Gluten & dairy free.
 - Keto & paleo friendly.
 - Kosher & halal certified.
