

SOLAR LOGOS ESSENCE

- Activates the light of the Soul within us, enabling us to then access the divine on a personal level.
- Opens our heart and mind allowing the Christ Consciousness to more readily enter.
- Allows our Soul to connect with the source of all Light.
- Brings light, love and spiritual power, into our bodies, hearts and minds.
- Manifests the seed of creation within us.
- Helps us to understand the nature of the divinity that is within us, allowing us to accept our God nature.
- Opens our heart to the wisdom that is deep within us.
- Ignites our heart flame.
- Integrates the Divine Masculine and Divine Feminine within us.
- Helps bring about the dissolution of all the emotional and spiritual pain that has gathered in the bodies, hearts, and minds of the human race.
- Brings you awareness of, as well as the information from, our Akashic records.

In December 2014, I received a message from Spirit that there was to be another Essence that they wished to create with me. It would both complement and work together with the Isis Essence. This **Solar Logos Essence** was made in Glastonbury, England, on the 27th of May in 2015.

Solar Logos is the Divine energy, the pure light that emanates from the Central Sun, the Heart of the Divine. It is the Divine Creation Source Power, the formative power of the universe. The Solar Logos is the Christ Consciousness and is beyond gender, it is a force. As it comes through into our world, it brings the power of love and soul healing, illuminating deep truth and creating a new reality within our dimension.

The Solar Logos energy is of such a pure, high vibration that it is invisible to the human eye – we are unable to perceive it. In order for us to sense, see and feel this energy, it is converted (when it reaches the Earth's stratosphere) into the White Light of Christ Consciousness. It is only when it is in this form that we are able to perceive it.

In order to prepare the Essence, to create a sacred chalice for this energy, it was necessary for the highly evolved soul and being, Melchizedek, to act as the vessel to hold and anchor the power of the pure light that is the Solar Logos, so that it could be manifested into an Essence. Melchizedek is an embodiment of the Divine Masculine Presence. Isis is an expression or embodiment of the most archetypal Divine Feminine Presence. Both are equally powerful and it is important to receive them in balance. It is very crucial for both society and the individual to have this equality and balance of the Divine Feminine and the Divine Masculine.

Consequently, I would recommend taking the Solar Logos Essence for two weeks, followed by a week on the Isis Essence.

Much Love, Light and Respect, **Ian**

Ian with his friend and trusted trance-medium Sally Pullinger, who has been involved in both the Solar Logos and Isis Essences.

People are becoming conscious of a huge, energetic shift upon the earth, with many powerful changes currently taking place within our world, which will continue in the coming times.

We are receiving, at this moment, waves of golden light, the rays of the Solar Logos, which are pouring through the universe from the centre of the Universe, from the Central Sun. This energy is charging through with enormous power, with force unstoppable, invincible – the power of love. Solar Logos is the Breath of the New Creation, it brings forward and awakens the power of creation within each and every one. This new creation takes root in every mind, heart, and body, who is ready

and willing to ground and grow the new consciousness on Earth.

When taking the Solar Logos Essence, the seed of light from this Essence goes into your cells, and creation is facilitated, it is literally energized, and that which is already within, is set in motion.

Now is the time for going deep within, for opening our hearts to the wisdom that resides deep within us. The Solar Logos Essence assists us with this. As you open to the knowledge that is within your soul, your being expands, your God or Goddess self comes in, enters into the pure light of your essence, and informs you of that deepest pure knowing from the Source. This Essence helps us to understand the nature of the divinity and wisdom that is within us, allowing us to accept our God nature.

When the Solar Logos energy comes in, it's very primal – you have all the light of the Central Sun coming in. If you could imagine golden light, the Solar Logos rays, flooding into a chalice filled with substance containing an amount of darkness. Then, because there is so much power in the Solar Logos it displaces all the dark, which then flows out over the edges. It's like everything comes slightly apart so that the dark can move out, and then the cells regroup in that lighter, purer form, in a much less dense structure. This enables one's light body

to commune more readily with the realms of Spirit and to be much more inhabited by one's Higher Self.

This process can throw up emotional or spiritual pain arising from so much karmic content being moved at this present time along with all the healing happening within one's emotional realm. Consequently this Essence is best worked in combination with the Isis Essence, which will help one with any overwhelm during this activation and movement of the sediment or darkness, while all the cells literally regroup in new formation.

The Solar Logos Essence opens our heart and mind allowing the Christ Consciousness to more readily enter. When the Christ Consciousness enters the form of a human being, the Light removes, just burns away the dross, the layers that cover up the beauty of the soul.

These two Essences are basically life and world changing energies, an incredible offering to the world. They are tools for more in-depth communication with yourself and the Divine.

Preparation: This Essence is available in Stock strength.

To prepare a dose bottle add 7 drops to a bottle up to 15ml containing 1/3 brandy and 2/3 purified water.

Dosage: 7 drops of the dose bottle are taken under the tongue on rising and retiring, usually for at least 2 weeks. We recommend taking the Essence on its own, not mixing it with other Essences, followed by a week on the Isis Essence.
