

The alkalising remedy:

# BioResearch Formula ACD

**Berberis vulgaris** (Barberry) has a marked effect on the kidneys. It may assist with kidney pain and weakness and general urinary complaints.

**Urtica urens** (Nettle) may help to relieve symptoms associated with gout. It helps to clear acidity and helps with fluid balance in the body.

**Natrum phosphoricum** and **Natrum carbonicum** are cell salts that help to alkalisate the body. Both help with fluid balance by stimulating cellular activity. They are particularly useful for those suffering from gout.

**Natrum sulphuricum** is cell salt that has a marked effect on the liver. It helps the liver to detoxify the body more effectively and helps to remove acid build up.

Each ingredients is potentised to a 12C, 15C and 30C dilution

Formula ACD may relieve the symptoms of these conditions:
