

The ultimate general tonic that supports digestion, energy and vitality:

BioResearch Formula GT

Capsicum may be beneficial where there is diminished vital heat and poor circulation. It would be especially helpful for those experiencing fatigue and exhaustion.

Apium graveolens (Celery) can be uplifting for those experiencing depression and may help with sleep. It also helps with fluid retention and poor circulation.

Panax ginseng (Ginseng) is a mental and physical stimulant and helps with energy flow around the body. It may be beneficial for those experiencing fatigue and exhaustion.

Lycopodium clavatum has a marked effect on the digestive tract. It supports healthy digestive secretions and liver function.

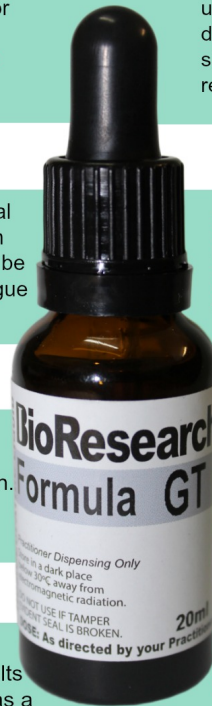

Pollen may help to reduce the immune response to allergens and boost overall immune system function.

Calcarea phosphate is a cell salt that may help to treat nutritional deficiencies and may help those experiencing fatigue and debility.

Natrum phosphoricum and **Magnesium phosphate** are cell salts that help to reduce acidity and act as a tonic for the nervous system.

Ferrum phosphate and **Kalium phosphoricum** are cell salts that have a tonic effect on the blood and nervous system. They may be especially useful for those experiencing fatigue and exhaustion.

Each ingredient is potentised to a 6C, 12C and 15C dilution
