

The prostate health remedy:

BioResearch Formula PST

Agnus castus (chaste tree) when used as a homeopathic medicine is indicated for male impotence, weakness of the sexual organs, enlarged prostate and diminished prostatic fluid.

Hydrangea when used as a homeopathic medicine is indicated for urinary tract infections, prostate infections and an enlarged prostate. It may also offer relief for sharp pain in the loins and when urination is hard to start.

Thlaspi bursa pastoris (Shepherds purse) is indicated when there is a frequent urge to urinate but little comes out.

Ferrum phosphate, Kalium phosphoricum & Calcarea fluorica are cell salts that help to tone and repair connective tissue and may help to relieve male impotence.

Each ingredients is potentised to a 12C, 15C and 30C dilution

Formula PST may relieve the symptoms of these conditions:

- Benign prostate hyperplasia
- Male impotence
