

## Advanced Mobility Formula for Dogs

Nutraviva Advanced Mobility Formula for Dogs is a specially designed formula to assist with improving lubrication within joint capsules, repairing damaged cartilage and joints, and reducing inflammation and pain.

Nutraviva Advanced Mobility Formula for Dogs has been designed to be taken on a daily basis and may also support improving mobility, energy levels and overall health and wellbeing.

### Advanced Mobility Formula for Dogs 250g - APVMA Approved

Australian Pesticides &  
Veterinary Medicines  
Authority Approved  
91423 / 132185

### Key points of difference:

- Nutraviva's all natural formula is a registered complimentary food supplement for dogs and is the only Australian collagen based pet supplement approved by the Australian Pesticides & Veterinary Medicines Authority (APVMA) to support joint health and mobility.
- Offers a safe and effective joint and bone supplement for all dog breeds of any age or size.
- High quality source of protein. Wet & dry food enhancer.
- All natural formulation with no GMOs, grains, dairy, nuts, additives or preservatives.

### Ingredients:

Active constituents: 649mg glucosamine sulfate (sourced from chitin - shellfish) 260 mg chondroitin sulfate (sourced from bovine cartilage).

Bovine collagen hydrolysate powder, methylsulfonylmethane (MSM), vitamin C and hyaluronic acid.
